

# SPRING HAS SPRUNG

April 2021

Unfortunately, this means an end to ski season but it has been a good one! On to gardening now.

Your Alpine Village Council and staff have been meeting over the winter, via zoom, addressing issues, concerns and questions as they arise. Of note as we head into spring:

**Village Winter Roads** will be allowed to have a natural thaw until snow levels become feasible for our winter road contractor, TRED, to be able to safely disperse the snow for a quicker melt and an opening of the village roads.

**Motorized vehicles in our village**, as per our Bylaws (up to date edition posted on the website) **no motorized vehicles are allowed in our Village while the roads are closed**, which is as long as our signs are posted.

**30(4) No person shall operate any motor vehicle, snow mobile or snow cat after the road closure signs have been posted at Alpine Village Strata 799 entrances without having obtained prior written authority from the Strata Council. (Amended December 16, 2020 CA8650987)**

Our Alpine Village website address is: [alpinevillage.ca](http://alpinevillage.ca)  
Please visit it for up-to-date bulletins, notices, information.

## Friendly reminders:

- Dogs must always be leashed in the village except in the designated off-leash area, located at Washington Way and Strata Way. Poop and scoop mandatory.
- Fireworks of any type are banned in the village.
- all correspondence with Council is to be directed through Cornerstone Properties.
